WHOLESALE CATALOGUE

OF FRUIT AND

Ornamental Trees,

Cultivated and for Sale at the

COMMERCIAL NURSERY,

FREEPORT, - ILLINOIS,

FOR THE SPRING OF 1871.

L. K. SCOFIELD,

COMMERCIAL NURSERY.

FREEPORT, STEPHENSON COUNTY, ILLINOIS.

BULLETIN PRINT, FREEPORT.

Having for a number of years given particular attention to the growing of Evergreens and Deciduous Ornamental Trees, I feel confident that I can now offer to the trade or tree planters, as well grown stock as can be found in the market.

My stock of (twice transplanted) Evergreens of *leading varieties*, also of European Larch, is very fine, and suitable for planting in timber belts or plantations. My stock of Apple, Cherry and Miner Plums, two and three years' growth, cannot be excelled by any Eastern stock of the same age.

Attention is especially called to our stock of Silver Maples, three years transplanted, from seven to twelve feet in heighth, which are offered at very low rates. All goods will be carefully packed, for which only cost will be charged. No charges for delivery to Railroad or Express Company in this city.

TERMS, CASH, One-fourth with order, and balance C. O. D., unless by special agreement to the contrary.

FRUIT TREES.

An assortment of Hardy Varieties, especially adapted to Western Soil and Climate, three years from the graft, 5 to 7 feet high.

Remarks—What I mean by the phrase "adapted to Western Soil and Climate," is the varieties of Apple and other fruit trees that I cultivate that are carefully selected from Western as well as Eastern Varieties, which possess superior excellence of quality, great productiveness, early fruiting, and hardiness on both timber and prairie soils; yea more, they can suffer nothing from long journeys.

Whereas, many of the Fruit Trees brought here from Eastern Nurseries are varieties that are second rate, and often poor in quality of fruit, unproductive on Western Soils, too tender to endure the climate, frequently dried or frozen; the former injurious, and the latter certain death to the tree, and generally at much *higher prices* than *better* Trees can be bought for in *Nurseries* at home.

APPLES.

	Per 100	*Per* 1000
Three years from graft, 5 to 7 feet high,	$20.00 to 30.00	$150.00

CHERRIES.
